

# THE URBAN ASSEMBLY New York HARBOR SCHOOL

The Urban Assembly New York Harbor School (UA-NYHS) is located on Governors Island in the heart of New York Harbor. The school is accessible only by ferry and offers a unique, on-water learning experience for its students.

Students build and operate boats, spawn and harvest millions of oysters, design submersible vehicles, conduct real-life research, and dive in New York Harbor. They go on trips, tour colleges, and hear and learn from experts in science and industry. Additionally, all actively participate in the The Billion Oyster Project, an on-going oyster restoration research program. UA-NYHS graduates go on to college and/or careers in maritime industries. Students leave with a sense of environmental responsibility and a deep understanding of NYC's waterways and its history.

UA-NYHS teaches a college and career preparatory curriculum built upon New York City's maritime experience, instilling environmental stewardship and training for careers on and around the water. We offer our students, many who are underserved, a chance to specialize in Vessel Operations, Marine Systems Technology, Scientific Diving, Marine Policy and Advocacy, Aquaculture, Ocean Engineering, and Marine Biology; all leading directly to lucrative careers. Simply put, we change lives.
